About The Why Knot

Angela and Tony, both Austin raised, grew up in the small town of live music surrounded by nature. Austin, the live music capital of its world, gave a love for live music. It was everywhere. Weekly festivals and shows. Barton Springs and the Greenbelt were sanctuaries. The love for nature, music and art was alive. And with music comes Angela's dancing. The partner's first date ended at Ginny's Little Longhorn Saloon. They never knew each other till a dear friend introduced them. Goes to show we cross each other's paths to one day find our way. So finding the Why Knot offered an old familiar feel of country roots with new beginnings. The couple will be offering their twist with nature and more to come. In hopes of creating a world with more live music, art, community and neighbors. Everything we want to keep alive in this world.

Why "Knot" choose love?
